

Am Ende sollt ihr einen  
Zukunfts-Podcast aufnehmen, in dem ihr  
ein Ausstellungsstücke vorstellt.

The diagram illustrates a smart building layout with interconnected zones. A central square area is divided into several functional zones, each represented by a colored circle or shape. The zones are labeled as follows:

- Workshop**: Located at the top left, represented by a blue circle.
- Mobilität**: Located at the top right, represented by a light blue circle.
- Digitale Demokratie**: Located at the bottom left, represented by a dark blue circle.
- Rohstoffe**: Located at the bottom center, represented by a green circle.
- Lounge & Bibliothek**: Located at the bottom right, represented by a light green circle.

Central to these zones is a white cube structure, which is connected to a black rectangular area containing a keyboard icon. A small black circle is positioned near the top center of the cube. The entire layout is enclosed within a square frame with rounded corners. Arrows indicate the flow of movement between the zones, with arrows pointing from the Workshop and Mobilität zones towards the central area, and arrows pointing from the Lounge & Bibliothek zone towards the central area. A small black circle is also located near the top center of the cube.

**Schreibt einfache Sätze und eine klare Geschichte für euren Podcast, damit ihr sie danach gut aufnehmen könnt.**
